

Grain Store and Arable Operator

Overbury Farms forms part of the forward-thinking Overbury Enterprises located between Tewkesbury, Evesham and Cheltenham on the Gloucestershire-Worcestershire border. The LEAF demonstration and Agri-EPI Satellite farm extends to 1600 Ha and is at the cutting edge of UK Regenerative Agriculture, operating a mix of arable and sheep enterprises within the wider estate activities.

Due to semi-retirement of our grain-store operator after 46 years, an exciting position has become available for an enthusiastic, conscientious, skilful and IT literate person to join our team.

The Position:

- Operation of the 10,000T dryer and grain store (built in 2017) and monitor in-store crop quality
- Grain Carting to the store
- Working as part of the team for spraying, fertilising and drilling operations
- Assisting with the maintenance of the farm infrastructure and conservation work
- Assisting with livestock duties
- Assisting the Farm Manager with record keeping

The Candidate will have:

- Full Clean Driving Licence
- PA1 and PA2 Certificates
- PA4 and PA6 Certificates -Training can be provided
- Telehandler certificate
- IT competent
- Experience with large modern farm equipment
- Interest in Regenerative Agriculture and farming technology
- Basic workshop skills would be an advantage
- Willingness to learn, take responsibility and be part of a wider team

Remuneration:

- Salary and pension commensurate with experience
- House available if required
- Continued personal development and training
- In addition to the role and the package, we are a close team in a wider engaging community

To apply please e-mail your CV and a covering letter, stating why and how you would add to our farming operation, to Jake Freestone (Farm Manager) farmmanager@overburyenterprises.co.uk by the 31st January 2020.
